Computer Science and Artificial Intelligence Engineer (Cum Laude, 2026) and Full Stack developer with experience in backend development, RAG systems and production platforms. Organized, quality-driven and team-oriented, committed to continuous learning and to adopting new technologies and AI tools to deliver reliable digital solutions.

Education

Universidad Sergio Arboleda — Bogotá D.C., Colombia
B.Eng. in Computer Science and Artificial Intelligence — *2022 – Sep. 2026*

- Graduated Cum Laude (September 2026).
- Honors Program "Rodrigo Noguera Laborde": 2025-I, 2025-II and 2026-I.

Universidad Sergio Arboleda — Bogotá D.C., Colombia
Diploma in Data Analytics and Big Data — *2026-I*

Software as Innovation Research Group — Feb. 2025 – Jun. 2026
Research and technology development group, Universidad Sergio Arboleda — *Bogotá D.C., Colombia*

Experience

Backend Developer — Jul. 2026 – Present
Indetech Consulting — *Bogotá, Colombia*

- Development of the product-matching engine for 8 retail chains (≈128k offers) in PriceIt.
- Construction of an async FastAPI API with MongoDB/Cosmos DB and hybrid search (BM25 + vector).
- Hot deployment of versioned normalization rules, with rollback and no service restarts.

Project Engineer — Jul. 2026 – Present
InConcert — *Bogotá, Colombia*

- Leadership of 3 end-to-end projects on a proprietary platform: planning, development and implementation.
- Configuration of Asterisk telephony integrations and VPN deployment for clients.
- Development and testing of end-to-end solutions; management of timelines, deliverables and client communication.

Software Developer — Jun. 2025 – Jun. 2026
Tech Craft Solutions — *Bogotá, Colombia*

- Development and delivery of 3 end-to-end full stack projects for clients, in a team of 3 people.
- Definition of architectures and technology decisions aligned with business goals.
- Technical direction of software and AI projects, coordinating the development team.

Projects

Coastal Case Law Agent | *RAG, LangGraph, FastAPI, Next.js, ChromaDB* — Mar. 2026 – Jun. 2026

- Development of a production RAG system for AI-assisted search of Colombian case law.
- Construction of the ingestion pipeline for ∼60 legal PDFs with Docling, vectorization and Ollama embeddings.
- Integration of Firebase for authentication, chat persistence and a user feedback system.

OrbitEngine | *FastAPI, React, TypeScript, PostgreSQL, Railway* — Nov. 2025 – Apr. 2026

- Development and deployment of a multi-tenant SaaS platform for SMEs, with up to 7 active companies.
- Implementation of inventory, customer and sales management, real-time alerts and sales dashboards.
- Leadership of the end-to-end cycle: architecture, backend/frontend development and production maintenance.

Skills

Languages: Python, TypeScript, JavaScript, Java, C#, Go, SQL, HTML/CSS, Dart
Frontend: React, Next.js, Flutter, Tailwind CSS, TanStack Query, ShadCN UI, Material Design
Backend: FastAPI (async), Flask, Django, .NET, Node.js (Express.js), REST APIs, webhooks
AI & Data: RAG systems, LangGraph, MCP, hybrid search (BM25 + vector), ChromaDB, Docling, Pandas
Databases: MySQL, PostgreSQL, Oracle SQL, MongoDB, Azure Cosmos DB, Firebase
Cloud & Infrastructure: Azure (App Service, AI Search, Notification Hubs), AWS, GCP, Docker, Linux, VPN
Tools: Claude Code, Cursor, OpenRouter, Git/GitHub (PRs, CI), pytest, ruff, feature flags
Soft Skills: Technical leadership, project and client management, teamwork, analytical thinking

Languages

Spanish (Native) | English (Advanced, B2) | French (Basic, A1)
